What Goes Wrong?

Can money really buy happiness? Every week someone wins the lottery in many different countries. You can win from a few thousand dollars to many millions. A big lottery win can transform your life in every way but it can also make your life more complicated.

You could buy your dream house, travel the world, quit your job or even start your own business. But when people find out you have won the lottery they will start asking you for money. How do you share your money with your family? It's a difficult decision that could cause many arguments and even break up the family.

How will you spend so much money? What will you do with it? Some people waste it and become poor again. Some people donate money to charity and keep a little for themselves or share it amongst their family. Having so much money is a big responsibility. What if a criminal wins the lottery? Should they be allowed to keep the money? The chance of winning the lottery is very low but the thought of winning is very exciting.
